Job title: NJNJT-Project Manager 3

Reference #: NJ2082

Job Location: Richmond, VA

Contract Position (Y/N): Y

Posted Date: 01/28/10

Job description:

PM will assess NJ TRANSIT's network and systems in light of PCI DSS, identify gaps, and prepare NJ TRANSIT's remediation plan. PM is the individual ultimately responsible to the agency who will manage the entire effort from start to finish.

Complete Description:

NJ Transit is a Level 2 Merchant subject to the Payment Card Industry Data Security Standards (PCI DSS). NJ TRANSIT processes credit card transactions on over 700 ticket vending machines (TVMs) and ticket office machines (TOMs) at stations and terminal throughout the State and via a tickets-by-mail program with subscriptions entered through the corporate website. The Information Security Consultant will work with NJ TRANSIT's IT staff to complete the latest Self-Assessment Questionnaire (SAQ) and develop NJ TRANSIT's remediation plan. The assessment and remediation plan will need to address all relevant components of the corporate technology environment.

During this engagement, the project manager will:

- Review the cardholder data environment
- Determine the relevant components of the network subject to the PCI standards
- Identify gaps in compliance
- Recommend policies, procedures, and controls to meet the requirements
- Prepare the remediation plan

Citizenship Required (Y/N): Y

Skill Set:

Years of Relevant Experience: 7 plus years

Preferred Education: 4 year college degree or equivalent technical study

Accountable for activities with excess delivery cycles of 8 to 12 months."
